Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Thursday 25 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming very windy in the north and west on Friday.

This Evening and Tonight:
Early evening cloud and rain over parts of Scotland spreads into all but southeastern England where conditions cold and frosty tonight. Clear spells and showers follow into Scotland and Northern Ireland later. Turning windier.

Friday:
Unsettled with showers or longer spells of rain and some sunny spells. Also some hill snow in Scotland. Becoming very windy in the north and west with coastal gales developing.

Outlook for Saturday to Monday:
Cold on Saturday with mixture of rain, sleet and snow showers, accompanied by gales. Improving through Sunday; widely fine after frosty start, further cloud/rain slowly spreading from the west later.
